**Magnetic System Converter**

Magnetic retention without adding steps to the process.

Whip Mix® and logos are registered trademarks and Hanau™ is a trademark of Whip Mix Corporation.

---

**Instructions**

1. Attach converter plate to upper and lower members just like you would a traditional mounting plate.

2. Snap disposable mounting plate onto converter plate. (same for upper and lower)

3. Locate maxillary cast with a facebow or mounting platform.

4. Close the articulator and mount the cast with stone to the disposable mounting plate.

**NOTE:** The stone must harden completely before removing the mounting plates from the converter. If you choose to hand finish the plaster, work with the model while on the articulator, or unscrew the converter plate.
