**DIE STONES**

**SILKY-ROCK**

- **Low-Expansion Die Stone**
  - Super-Soft for economical use, SilkyRock offers low expansion and maximum accuracy for high-speed die casts.
  - **Packaging**
    - Bulk: 22 kg (50 lb.) carton
    - Preweighed envelopes: 11 kg (25 lb.) carton, 22 kg (50 lb.) carton

**PRIMA-ROCK**

- **High-Strength Die Stone**
  - Formulated for applications requiring the highest possible compressive strength.
  - **Packaging**
    - Bulk: 22 kg (50 lb.) carton
    - Preweighed envelopes: 11 kg (25 lb.) carton, 22 kg (50 lb.) carton

**HARD ROCK**

- **High-Strength, High-Expansion Die Stone**
  - Hard Rock is a high-strength, high-expansion die stone.
  - **Packaging**
    - Bulk: 22 kg (50 lb.) carton
    - Preweighed envelopes: 11 kg (25 lb.) carton, 22 kg (50 lb.) carton

**LEAN ROCK**

- **High-Expansion Die Stone**
  - Lean Rock is formulated specifically for crown and bridge and for use in mold making, accurately casting quickly.
  - **Packaging**
    - Bulk: 22 kg (50 lb.) carton
    - Preweighed envelopes: 11 kg (25 lb.) carton

**JADE STONE**

- **High-Strength Die Stone**
  - Jada Stone sticks and stays in place, even when used with wet stones.
  - **Packaging**
    - Bulk: 22 kg (50 lb.) carton
    - Preweighed envelopes: 11 kg (25 lb.) carton, 22 kg (50 lb.) carton

**NEW**

**SNAP-STONE**

- **High-Strength, Fast-Setting Stone**
  - Snap-Stone is the fastest setting stone available. Ready to use after only 3 minutes. Large types may be used for complex forms or for other procedures requiring a fast setting time.
  - **Packaging**
    - Bulk: 22 kg (50 lb.) carton
    - Preweighed envelopes: 11 kg (25 lb.) carton

**FLOWSTONE FS**

- **Flow-Low-Expansion Base Stone**
  -流石粉Low-Expansion Base Stone
  - **Packaging**
    - Bulk: 22 kg (50 lb.) carton

**MOUNTING STONE**

- **Low-Expansion, Fast-Setting Stone**
  - Mounting Stone is designed for use in mounting plates to articulators. It also performs well as a dental stone when a rapid set is required.
  - **Packaging**
    - Bulk: 22 kg (50 lb.) carton
    - Preweighed envelopes: 11 kg (25 lb.) carton, 22 kg (50 lb.) carton

**NEW**

**FLOWSTONE**

- **Flow-Low-Expansion Base Stone**
  - **Packaging**
    - Bulk: 22 kg (50 lb.) carton

**ORTHODONTIC STONE**

- **Economical Ortho Stone**
  - Ortho Stone is economical ortho stone with excellent handling properties. Its smooth, creamy consistency makes it ideal for a variety of ortho procedures.
  - **Packaging**
    - Bulk: 11 kg (25 lb.) carton
    - Preweighed envelopes: 8 kg (18 lb.) carton

**BITESTONE**

- **Extremely Fast-Setting Stone**
  - Bitestone is a non-setting, ortho stone used for mounting plates and for use as an ortho stone when a rapid set is required.
  - **Packaging**
    - Bulk: 11 kg (25 lb.) carton

**PLASTERS**

**SUPER-WHITE DENTAL PLASTER**

- **Flowstone FS**
  - **Packaging**
    - Bulk: 22 kg (50 lb.) carton

**LABORATORY PLASTER**

- **Regular and Fast Set**
  - An economical, white plaster formulated for all-around laboratory use. Available in regular and fast set.
  - **Packaging**
    - Bulk: 22 kg (50 lb.) carton

**OUR REPUTATION IS CAST IN STONE**

For great restorations, you need a strong foundation. Our extensive line of quality gypsum products mix smoothly, flow freely and set with a superior surface for exquisite dies and casts.

Plus, we test every batch of gypsum to ensure our customers receive the most reliable and consistent products available. You can count on the consistency and accuracy of all our products,application time, setting expansion and strength of every batch of Whip Mix gypsum you purchase.
