WHERE TOUGHNESS MEETS FLEXIBILITY.

Elevate your dental experience with the Whip Mix® 3D-Printed Gingiva masks.

- **Fast print and support removal:** Streamline your workflow and save your time and labor costs.
- **Save handling and post-processing time:** Skip the long shaking, boiling, and extensive alcohol baths.
- **Tough yet flexible:** Eliminate rework from tearing yet easily trim into the desired shape.
- **High Accuracy:** Precise and detailed print to fit perfectly on 3d models.
- **Low tackiness:** Handle with ease without marred surface finish.
- **Odorless:** Enhance the user experience with a comfortable work environment.

Designed to strike the perfect balance between flexibility and firmness to print gum-like soft tissue replicating with accuracy a patient's gingiva with unparalleled speed & ease of use.

"We really like VeriGUM. It is not as sticky/tacky coming off the build plate and feels more rigid/firm than other resin in the market" *Brandon Stapleton, DMD, MSD Prosthodontist, Lexington, KY*
