UNPARALLEL PRECISION PAIRED WITH A CLEAN DETAILED SURFACE FINISH.

Elevate your dental experience with the Whip Mix® 3D-Printed Models.

- **Extreme precision:** Ensure the optimal fit and check of any dental application.
- **Wide variety of dental models:** Find a perfect match for every dental modeling need.
- **Finely detailed surface:** Experience true and visually sharp margins.
- **Natural and true color variations:** Provides a bold contrast with restorative materials allowing for detailed viewing of margin and anatomical definition.

Whip Mix® VeriMODEL™ Ivory is one of the best model resins I have ever worked with. It is Amazing!"
Michael D Scherer, DMD, MS, FACP Prosthodontist/Diplomat, American Board of Prosthodontics, Sonora, CA

VeriMODEL™ All Purpose

Ivory / Golden Brown / Grey

385/405nm
Precision & Speed

Physical Properties

Physical Properties

Property	Value
Flexural Strength (ASTM D790)	120 MPa
Flexural Modulus (ASTM D790)	3200 MPa
Elongation at Break (ASTM D638)	13%
Viscosity	1000±250 cP at 24±1°C
Density	1.11g/ml

VeriMODEL™ All Purpose

In addition to offering a high quality surface finish and extreme precision for models, the Whip Mix® VeriMODEL™ resin also offers a wide variety of 3D printed applications, including the production of highly accurate working and presentation models for crown and bridge, prosthetics, and orthodontic work.

"Comparing VeriMODEL Golden Brown with what we currently use, there seems to be more detail, color is darker, which allows you to see details better" *4 Points Dental Designs, Inc., St. Petersburg, FL*
